Dear Parents,

Kids Aboard Therapy, an occupational and speech therapy company run by Chaya Posner, MSOT will be offering occupational therapy screenings to students who may benefit from these services. Occupational Therapy is a treatment that provides children with fun activities to improve their cognitive, physical, and fine motor skills. One of the areas that an occupational therapist evaluates is a child's skill in relation to school performance. A screening is the initial step. The screening will address your child's skill in relation to motor function. The service is being offered to all students but it is most beneficial if your child struggles with attention, fine-motor, or gross motor skills. Occupational therapy screenings will be conducted by appointment. They will take place on _____

The cost of a screening is \$20.00. A screening consists of a 20-30-minute assessment of your child's skills using clinical observations and standardized testing. In addition, a questionnaire may be given to the parent and/or teacher to complete if therapist thinks it is necessary. If the screening results indicate a need, an evaluation can be pursued through Kids Aboard Therapy or another licensed occupational therapist. All fees for the screening go directly to Kids Aboard Therapy. Downtown Jewish Preschool does not profit in any way from the screening or future occupational therapy.

If you are willing to have your child screened, please respond accordingly by signing the tear-off sheet below. If you have further questions, please contact Kids Aboard Therapy at (954) 306-2807 or kidsaboardtherapy@gmail.com. Please respond promptly and return the form along with the \$20 payment to your child's teacher or school office.

Sincerely,

Chaya G.Posner, MSOT
